## FULL STACK DEVELOPER

I'm a dedicated professional committed to precise work and constant growth. With strong coding skills, and I really like learning new things to get even better.. As a passionate engineer, I really want to use my skills on actual projects, handle challenging responsibilities in a dynamic business setting, and offer valuable insights and innovative solutions.

## Skills

### Back-End

- C# & OOP
- ASP .NET CORE MVC
- ASP .NET web API
- Oracle Database
- PL/SQL

### Front-End

- Angular Framework
- HTML/CSS
- Bootstrap
- JavaScript

## Miscellaneous

- Problem Solving
- Github
- visual studio code & visual studio

## SOFT-SKILLS

- Communication Skills
- Adaptability
- Flexibility
- Teamwork
- Work Ethic
- Agile methodology
- Time Management

## LANGUAGE

- Arabic - Native.
- English -Excellent

## EDUCATION

**University of Science and Technology (JUST)**

**2018-2023**

Bachelor's Degree Networks Engineering and Security (**GOOD**)

## EXPERIENCE

**Training at Tahaluf Al Emarat Technical Solutions**

**internship Full Stack Developer**

experience Full Stack Developer included ASP.NET Core MVC ,ASP.NET Web API ,Angular framework, HTML/CSS/JS and Bootstrap , oracle SQL Database .

### Projects

**PH Medicine** visit my [GITHUB](#) FrontEnd , [GITHUB](#) Back-End

- The initiative leverages Oracle Server in conjunction with SQL Developer for effective database administration , and employs ASP.NET Core Web API for the backend, coupled with Angular for the frontend. It aims to streamline medicine purchase and prescription scanning through a dynamic and responsive system with user-friendly interfaces and strong reporting.

**Health Insurance** visit my [GITHUB](#)

- The project incorporates ASP.NET MVC for development, featuring a dynamic and responsive system for health insurance subscriptions. Utilizing Oracle Server and SQL Developer for database management, the platform facilitates subscription payments, beneficiary additions, and detailed reporting. Interface design incorporates Bootstrap, ensuring a user-friendly experience with elements changing dynamically based on the database.
